3647 Hosp

INDEX TO VOLUME XCIX.

- Abbot, S. L.** Heat stroke, treatment by cold sponging, 63; case of supposed congestion and subsequent transient inflammation of the spinal cord, 404; salicylic acid in neuralgia, 500; stricture of the esophagus caused by gastric ulcer, 500; viburnum prunifolium, 634; albuminuria at the seventh month of pregnancy, 834.
- Amory, K.** Recent progress in therapeutics, 367, 397.
- Anatomy.** Recent progress in anatomy, Dwight, T., 303, 338; examination of the negro Thomas, Michel, M., 551.
- Army.** Army Medical Board, 321; specimens in the Army Medical Museum, Jackson, J. B. S., 504.
- Arnold, G. J.** Chronic ulcer of the duodenum, congenital absence of left kidney and ureter, 406.
- Atkinson, J. E.** The pigmentary syphiloderma, 342; the botanical relations of microphyton, 376.
- Ayer, J. B.** A case of cerebral syphilis, with persistent hallucinations of hearing, 534.
- B., F.** Excision of spleen, 195.
- Bacheler, O. R.** Remarkable case of paralysis, with spontaneous relief, 31.
- Baker, W. H.** Recent progress in gynecology, 78; the abuse of caustic in gynecology, 208, 496.
- Baltimore.** Letter from Baltimore, 163.
- Barrett, H. A.** Letter from Dr. Barrett, 481.
- Berlin.** Letter from Berlin, Platt, W. B., 225.
- Bibliography.** Stone, J. O., Clinical Cases, Medical and Surgical, 22; Garland, G. M., Pneumodynamics, 83; Allen, N., Prevention of Disease, Insanity, Crime, and Pauperism, 87; Anderson, McC., Lectures on Clinical Medicine, 89; Osler, W., Pathological Report (Montreal General Hospital) for the Year ending May 1, 1877, 122; Delafield, F., Studies in Pathological Anatomy, 123; Williams, E. F., The Science of French Conjugation, 124; Hutchinson, J., Illustrations of Clinical Surgery, 124; Clarke, E. H., Visions: A Study of False Sight (Pseudopia), 152; Logan, C. A., Logan on the Physics of the Infectious Diseases: Comprehending a Discussion of Certain Physical Phenomena in Connection with the Acute Infectious Diseases, 186; Squire, B., Atlas of the Diseases of the Skin, 187; Hoff, O., on Hematuria as a Symptom of Diseases of the Genito-Urinary Organs, 188; Busey, S. C., Congenital Occlusion and Dilatation of Lymph Channels, 251; Transactions of the American Gynecological Society, Vol. II., 252; Ott, J., The Action of Medicines, 284; Turnbull, L., The Advantages and Accidents of Artificial Anesthesia, 285; Durkee, S., A Treatise on Gonorrhea and Syphilis, 285; Schweigger, C., Hand-Book of Ophthalmology, 310; U. S. Marine Hospital Service, The Adoption of the Metric System of Weights and Measures by the U. S. Marine Hospital Service, 311; Dwight, T., The Identification of the Human Skeleton, 347; Besant, A., The Law of Population, 379; Jones, P., Lessons in Laryngoscopy, including Rhinoscopy and the Diagnosis and Treatment of Diseases of the Throat, 380; Tuke, D. H., Insanity in Ancient and Modern Life, with Chapters on its Prevention, 410; Duhring, L. A., Duhring's Atlas of Skin Diseases, Part IV., 469; Arlt, F. von, Injuries of the Eye, and their Medical-Legal Aspect, 469; Thompson, E. S., Colds and Coughs, their Causes and Consequences, 470; Delafield, F., Studies in Pathological Anatomy, Nos. 6 and 7, 470; Triplett, W. H., Life, 471; Schwartz, H., The Pathological Anatomy of the Ear, 505; Hamilton, A. McL., Nervous Diseases, their Description and Treatment, 506; Magitot, E., Treatise on Dental Caries, 535; Gray, H., Anatomy, Descriptive and Surgical, 563; Jones, H. M., A Practical Treatise on Aural Surgery, 601; Roosa, D. B. St. J., A Practical Treatise on Diseases of the Ear, including the Anatomy of the Organ, 635; Stimson, L. A., A Manual of Operative Surgery, 658; Billings, J. S., Report on Heating and Ventilation, 659; Durant, G., Horseback Riding from a Medical Point of View, 661; Benjamin, S. G. W., The Atlantic Islands as Resorts of Health and Pleasure, 661; Ford, C. L., Questions on Anatomy, Histology, and Physiology, for the use of Students, 661; Boston Medical Library Association, 669, 745, 768; Bucknill, J. C., Habitual Drunkenness and Insane Drunkards, 800; Tyson, J., A Guide to the Practical Examination of the Urine, 802; Ziemssen's Cyclopaedia, Vol. VIII., 802; Tyson, J., The Cell Doctrine, its history and present state, 838.
- Biography.** Rokitsansky, K., 153; Gay, G. H., 225, 676; Warren, E., 320; Alice, W. P., 383; Wilbur, J. R., 388; Bickford, H. C., 402; Jewett, T. H., 420; Wilbur, J. R., 431; Taylor, J. W., 568; Hart, S., 742; Geddings, E., 742; Williams, E., 777; Arnold, S. A., 812.
- Bixby, G. H.** Vesical calculi, autopsy, 63; a case of sub-mucous uterine fibroid treated by electrolysis, 300; a case of pregnancy following ovariectomy in a subject in whom a former pregnancy and parturition were complicated with the tumor, 834; malignant disease of the uterus, 834.
- Blake, G. A.** Fayal as a resort for invalids, 238.
- Blodgett, A. N.** Curare in hydrophobia, 320; carcinoma of the conjunctiva, 531.
- Blood, E. A.** Chronic ulcer of the duodenum (case of Dr. H. C. Bickford), 402.
- Boston Dispensary.** Statistics of the Boston Dispensary, 577.
- Bowditch, H. I.** A National Board of Health, 642.
- Bradford, E. H.** Surgical dressings with a view to their preservative properties, 408; recent progress in orthopedic surgery, 400; Children's Hospital, service of Dr. Bradford, 571; reflex symptoms in hip disease, 713, 759.
- Breast.** Supplemental mammary glands, Sinclair, A. D., 55; twelve cases of disease of the breast and axilla operated upon with antiseptic precautions, Warren, J. C., 841.
- Brooks, N. G.** Diabetes in a boy twenty-six months old, 282.
- Brown, M. L.** A case of cystic cancer of the ovary, 162.
- Burroughs, J. B.** An autopsy revealing the obliteration of the tricuspid valve, 610.
- Busey, S. C.** Case of alternating anterior and posterior version of the uterus, 442.
- Byford, W. H.** Dermoid tumors of the ovaries, 341.
- C., H. G.** Yellow fever, 289.
- Cabot, A. T.** A case of leukemia, 526.
- Cabot, S.** Cases of Drs. Cabot and Warren, eight amputations with antiseptic precautions, 666.
- Campbell, D.** Lead poisoning, 282.
- Campbell, H. F.** Rectal alimentation in the cases and laceration of pregnancy, 443.
- Cellular tissue.** Periarthritic abscess of the knee in a young child treated by the Lister method. Keyes, E. L., 197; lumbar abscess, Cheever, D. W., 328; abscess under the pectoralis muscle, Cheever, D. W., 517.
- Chadwick, J. R.** Umbilical hernia in the fetus,

- 55; monstrosity, 465; examining table, 534; pus in ovarian fluid, 630.
- Chamberlain, C. N.** A case of strangulated hernia, with remarks, 686.
- Chandler, T. H.** Thumb-sucking in childhood as a cause of subsequent irregularity of the teeth, 204.
- Charbon.** Charbon in hair factories, 351.
- Cheever, D. W.** Résumé of the cases of Lister dressing in Dr. Cheever's term of service, 93; cancer of the tonsil, removal of the tumor by external incision, 133; clinical lecture, compound fracture of patella, dislocation of the head of the humerus, disease of the hip-joint, resection of the head of the femur, 229; clinical lecture, wounds of the scalp, internal and external hemorrhoids, bullet wound in the thigh, lumbar abscess, case of suspected calculus, frost bite, 325; clinical lecture, abscess under the pectoralis muscle, soft malignant tumor of nates, lithotomy at twenty-three months of age, 517; surgical cases of Dr. Cheever, tracheotomy in an adult without ether, compression of the brain, 639; clinical lecture, urethral stricture, syphilitic constriction of the pharynx, 645.
- Chemistry.** The relation which chemistry bears to forensic medicine, Wood, E. S., 139.
- Children.** Umbilical hernia in the fetus, Chadwick, J. R., 55; recent progress in the treatment of children's diseases, Hayden, D. H., 115, 144; large abdomen in the new-born child, Hodgdon, R. L., 465, 835; infant mortality in France and England, 803.
- Choppin, S.** Circular of the New Orleans Board of Health, 480.
- Circulatory System.** Recent progress in the treatment of thoracic diseases, Knight, F. I., 183, 211; absence of resonance in the fifth right intercostal space diagnostic of pericardial effusion, Rotch, T. M., 359, 421; arterio-venous aneurism, extirpation, Thorndike, W. H., 475; a case of mitral insufficiency, Keene, J. W., 522; examination of the negro Thomas, Michel, M., 551; cardiac embolism following delivery, Sullivan, J. L., 590; autopsy revealing the obliteration of the tricuspid valves, Burroughs, J. B., 610; abdominal aneurism, Da Costa, J. M., 813.
- Coggin, D.** "Neuralgia" of the eye, 576.
- Correspondence.** Letters from London, 27, 541; climate of Georgia, G. R. S., 59; letter from Baltimore, 163; letters from New York, 191, 316; Royal University clinic, Berlin, Platt, W. B., 225; "cuticula," Wigglesworth, E., 280; examination of the negro Thomas, Michel, M., 551; the Fisher case, Treadwell, J. B., 354; letter from Rhode Island, 383; letter from New Orleans, yellow fever, 446; letters from Philadelphia, 448, 477, 572; letter from Dr. Barrett, 481; the Johns Hopkins University, 605; letter from Memphis, 669; letter from Washington, 705; letter from Halle, Elliot, J. W., 807.
- Cotting, B. E.** Colles's fracture, 221; erythema vesiculare of Good, 250.
- Crowell, John.** Some anomalies in pregnancy, 456.
- Curtis, H.** Cases of diphtheria treated with salicylic acid, chlorate of potash, and dialyzed iron, 414; excessive discharge excited by mucous uterine polypus, 467; tumor of uterus, 628.
- Curtis, T. B.** Recent progress in urinary surgery, 433; fracture of the humerus by muscular action, 479; a case of hydrophobia, 581, 619.
- Cutaneous System.** Erythema vesiculare of Good, Cotting, B. E., 250; "cuticula," Wigglesworth, E., 280; the pigmentary syphiloderma, Atkinson, J. E., 332; case of the so-called xeroderma of Hebra, Duhring, L. A., 343; the proper use of the term acne, Fox, G. H., 343; a case of scleroderma, Flske, F. P., 343; epithellum and its performances, Heitzmann, C., 343; case of inflammatory fungoid neoplasm, Duhring, L. A., 375; treatment of hirsuties, Hardaway, W. A., 375; a case of gangrenopnea, Piffard, H. G., 375; the use of linseed and oil as therapeutic agents in diseases of the skin, Sherwell, 376; the botanical relations of microphyton, Atkinson, J. E., 376; a case of ulcerative scrofuloderma, Van Haxlingen, 377; a further contribution to the study of the xeroderma of Hebra, Taylor, R. W., 377; a case of recurrent cutaneous hemorrhage, with urticarial and bullous efflorescence, White, J. C., 373, 453; cuticula, McArthur, J. A., 385; warning against "cuticula," White, J. C., 500; lupus of the hand, Greenough, F. B., 500; eruption following the use of salicylic acid, Wheeler, W. G., 502; recent progress in dermatology, White, J. C., 724, 764; classification and nomenclature of skin diseases, 776.
- Cutler, E. G.** A case of lumbar colotomy performed for the relief of temporary obstruction of the bowels caused by pelvic inflammation, 429; cholesteroline biliary calculus, 498.
- Da Costa, J. M.** Clinical observations upon abdominal aneurism, with special reference to treatment, 813.
- De Beer.** Atomizing apparatus, 121.
- Digestive System.** Probable ulcer of the stomach, Flint, A., 1; cancer of the pylorus, remarkable relief from distressing symptoms afforded by codeia, Flint, A., 2; umbilical hernia in the fetus, Chadwick, J. R., 55; cancer of the tonsil, Cheever, D. W., 133; rare cases of strangulated hernia, Gay, G. W., 173; excision of spleen, F. B., 195; thumb-sucking in childhood as a cause of subsequent irregularity of the teeth, Chandler, T. H., 204; epithelial cancer of the pharynx and oesophagus, Langenbeck, B. von, 225; floating spleen, Shattuck, F. C., 236, 272; a case of gangrenous inflammation perforating the intestine followed by recovery, Wilmarth, J., 258; perforating ulcer of the stomach, Sawyer, L., 282; internal and external hemorrhoids, Cheever, D. W., 325; splenotomy, Kober, G. M., 321; a case of arsenical poisoning with fatty degeneration of the liver, kidneys, and gastric glands, Pinkham, J. G., 357; chronic ulcer of the duodenum, Blood, R. A., 402; chronic ulcer of the duodenum, Arnold, G., 406; case of lumbar colotomy, Cutler, E. G., and Homans, J., 429; cholesteroline biliary calculus, Cutler, E. G., 498; stricture of the oesophagus caused by gastric ulcer, Abbot, S. L., 500; perforation of the gall-bladder, Lyman, G. H., 501; inflamed papillae of the tongue, Lyman, G. H., 508; carbolated cosmine in pruritus ani, Minot, F., 503; umbilical fistula, Bradford, E. H., 571; congenital inguinal hernia, Bradford, E. H., 572; the cecum and appendix vermiformis, Noyes, R. F., 597; syphilitic constriction of the pharynx, Cheever, D. W., 645; fistula in ano, Ordway, J. P., 657; a case of strangulated hernia, with remarks, Chamberlain, C. N., 686.
- Draper, F. W.** Recent progress in public hygiene, 276; cases illustrating the work and duties of the medical examiner, 330.
- Duhring, L. A.** Case of the so-called xeroderma of Hebra, 343; case of inflammatory fungoid neoplasm, 375.
- Dwight, T.** Recent progress in anatomy, 803, 338.
- Ear.** Recent progress in otology, Green, J. Orne, S. Edes, R. T. A case of general cancer including the supra-renal capsules, with symptoms of Addison's disease, 788.
- Editorials.** Our medical societies and the character of their work, 24; medical witnesses and the power of a subpoena, 57; the New York Academy of Medicine, 80; the summer solstice, 90; the International Congress of Hygiene, 125; Karl Rokitsansky, 153; foreign practitioners in France and England, 183; yellow fever, 222; commitments to insane asylums, 254; Dr. Woodworth's views on yellow fever, 255; a sequel to the Fisher case, 296; the case of Captain Holm, 281; suggestions on medical education, 312; charbon in hair factories, 351; the functions of medical examiners, 381; the preliminary course of the Johns Hopkins University, 412; our marine hospital service, 443; forensic medicine, 471; the sewerage of Taunton, 508; the duties of the medical profession concerning prostitution, 537; a striking contrast, 567; surgeon-general of the navy, 568; the registration of diseases in census returns, 602; the Whitman poisoning case, 636; annual meeting of the American Public Health Association, 692; litholapaxy in London, 692; the Boston Medical Library Association, 699; an outrageous suit for malpractice, 700; Medora E. White vs. Hiram L. Chase, 701; the meeting of the American Public Health Association, 701.

- tion, 735; the dedication of the building and hall of the Boston Medical Library Association, 768; medical education in Germany, 774; Massachusetts Medical Benevolent Society, 793; infant mortality in France and England, 808; experiments with trichine in Chicago, 805.
- Elliot, J. W.** Letter from Halle, 807.
- Emmett, T. A.** An analysis of one hundred and sixty-one cases of operation for vesico-vaginal fistula, 439.
- Engelmann, G. J.** Ante-natal fractures, 439.
- Eye.** Relative frequency of color-blindness in males and females, Jeffries, B. J., 107; development of the eye, Hunt, D., 121; carcinoma of the conjunctiva, Blodgett, A. N., 631; a new theory regarding myopia, Hunt, D., 633; "neuralgia" of the eye, Coggin, D., 576; recent progress in ophthalmology, Wadsworth, O. F., 593.
- Fayal.** Fayal as a resort for invalids, Blake, G. A., 283.
- Fernald, O.** Nervous versus blood diseases, 372.
- Fisher, T. W.** Recent progress in mental diseases, 490.
- Fitz, R. H.** The value of anatomical appearances, 168; fatal case of hydrophobia, 261; recent progress in pathology and pathological anatomy, 653, 692.
- Flint, A.** Clinical lecture: probable ulcer of the stomach; cancer of the pylorus, remarkable relief from distressing symptoms afforded by coloda; sneaking pneumonia, 1.
- Florida.** Florida as a health resort, Nichols, J. R., 872.
- Foster, F. P.** A case of scleroderma, 343.
- Fox, G. H.** The proper use of the term acne, 343.
- G., E.** Obituary, Dr. Edward Warren, 320.
- Garrigue, H. J.** Historical account of the operation of gastro electrolysis, 442.
- Gay, G. W.** Rare cases of strangulated hernia, 178.
- General Diseases.** Cancer of the pylorus, Flint, A., 2; the causation of typhoid fever, Waring, G. E., Jr., 65, 101; diphtheria and erysipelas in a small hospital, Shattuck, F. C., 71; cancer of the tonsil, Cheever, D. W., 133; cystic cancer of the ovary, Brown, M. L., 162; phagedenic chancre treated by the internal use of mercury in sufficient quantity to affect the system, Keyes, E. L., 201; yellow fever, 222; epithelial cancer of the pharynx and oesophagus, Langenbeck, B. von, 225; disease of the hip joint, Cheever, D. W., 231; Dr. Woodworth's views on yellow fever, 256; diabetes in a boy twenty-six months old, 282; yellow fever, H. G. C., 289; a case of cerebral syphilis, Ayer, J. B., 335, 534; cases of diphtheria treated with salicylic acid, chlorate of potash and dialysed iron, Curtis, H., 414; letter from New Orleans, yellow fever, 446; circular letter on the yellow fever epidemic of 1878, Woodworth, J. M., 514; a case of leukæmia, Cabot, A. T., 526; carcinoma of the conjunctiva, Blodgett, A. N., 631; diphtheria, Read, W., 657; National Yellow Fever Relief Commission, 673; yellow fever, American Public Health Association, 697, 729; yellow fever investigation, 710; reflex symptoms in hip disease, Bradford, E. H., 713, 759; mediastinal growths, Moore, F. F., 719; case of general cancer including the supra-renal capsules with symptoms of Addison's disease, Edes, R. T., 783; recent progress in syphilology, Wiglesworth, E., 793, 829; cases of scarlatina, Hosmer, A., 835.
- Generative System.** Uterine polypus, Minot, F., 56, 465; recent progress in gynecology, Baker, W. H., 78; the best method of controlling high temperature occurring after ovariectomy, Thomas, T. G., 80; ovarian tumor treated by electrolysis, Wheeler, W. G., 120; cystic cancer of the ovary, Brown, M. L., 162; perimetritis; amenorrhœa from arrested development, Goodell, W., 165; the abuse of caustic in gynecology, Baker, W. H., 205, 493; cases of ovariectomy, Homans, J., 299; sub-mucous uterine fibroid treated by electrolysis, Bixby, G. H., 300; an analysis of one hundred and sixty-one cases of operation for vesico-vaginal fistula, Emmett, T. A., 439; dermoid tumors of the ovaries, Byford, W. H., 441; case of alternating anterior and posterior version of the uterus, Busey, S. C., 442; historical account of the operation of gastro electrolysis, Garri-
 gues, H. J., 442; excessive discharge excited by mucous uterine polypus, Curtis, H., 467; metrorrhagia from an abnormal condition of the uterine mucous membrane, Sinclair, A. D., 467; uterine fibroid, Thomas, T. G., 549; tumor of uterus, Curtis, H., 628; pus in ovarian fluids, Chadwick, J. R., 630; local congestion vicarious with menstruation, Minot, F., 633; viburnum prunifolium in dysmenorrhœa, Abbott, S. L., 634; epididymitis and hydrocele associated with urethral stricture, Otis, F. N., 677; malignant disease of the uterus, Bixby, G. H., 834.
- Georgia.** Climate of Georgia, 59.
- Goodell, W.** Clinical lecture delivered at the University [Pennsylvania] Hospital; perimetritis, amenorrhœa from arrested development, 165.
- Gray, C. A.** Quinine as a febrifuge, 282.
- Green, J. Orne.** Recent progress in otology, 8; pine pollen, 502.
- Greenough, F. B.** Lupus of the hand, 500.
- Gross, S. W.** The symptoms and treatment of cystitis in the male, 613.
- H., S. S.** Letter from New Orleans, yellow fever, 446.
- Halle.** Letter from Halle, Elliot, J. W., 807.
- Hamilton, A. McL.** The value of absent "tendon-reflex" as a diagnostic sign in locomotor ataxia, with an analysis of eight cases, 781.
- Hammond, W. A.** Clinical lecture on facial paralysis, 485.
- Hardaway, W. A.** Treatment of hirsuties, 375.
- Harris, F. A.** The North Grove Street morgue, 741.
- Hayden, D. H.** Recent progress in the treatment of children's diseases, 115, 144.
- Heltzmann, C.** Epithelium and its performances, 343.
- Hodgdon, R. L.** Large abdomen in the newborn child, 465, 735.
- Hodges, R. M.** Calculi passed per urethrum, 493.
- Holmes, O. W.** Dedictory address at the opening of the new building and hall of the Boston Medical Library Association, 745.
- Homans, J.** Cases of ovariectomy, 299; case of lumbar colotomy, 423.
- Hosmer, A.** Address (Mass. Medico-Legal Society) delivered June 11, 1878, 33; gastralgia preceding convulsions, 834; cases of scarlatina, complicated, one with thoracic inflammation, the other with hæmorrhage probably from the fauces, 835.
- Hospital Reports, Clinics, and Lectures.** Bellevue Hospital, clinical lecture, Flint, A., 1; Boston City Hospital, Lister dressing in Dr. Cheever's term of service, 93; Boston Lying-In Hospital, service of Dr. Richardson, 127; Boston City Hospital, surgical cases in the service of Dr. Ingalls, 153; University (Pennsylvania) Hospital, clinical lecture, Goodell, W., 165; Bellevue Hospital, clinic of Dr. Edward L. Keyes, 197; Boston City Hospital, clinical lecture, Cheever, D. W., 229; Boston City Hospital, surgical cases of Dr. Thorndike, 315; Boston City Hospital, clinical lecture, Cheever, D. W., 325; Boston City Hospital, surgical cases in the service of Dr. Thorndike, 474; La Charité Hospital, Paris, 512; Children's Hospital, service of Dr. Bradford, 571; statistics of the Boston Dispensary, 677; Boston City Hospital, surgical cases of Dr. Cheever, 639; Massachusetts General Hospital, cases of Drs. Cabot and Warren 656; Massachusetts General Hospital, surgical cases of Dr. Warren, 841.
- Hunt, D.** Development of the eye, 121; a new theory regarding myopia, 633; preliminary education, 545.
- Hurd, E. P.** Old style versus new style practice, 98; the physiology of sleep, 824.
- Hygiene, Health, and State Medicine.** Microscopic organisms in Cochituate water, White, R., Jr., 41; the international congress of hygiene, 125; recent progress in public hygiene, Draper, F. W., 276; circular of the New Orleans Board of Health, Choppin, S., 480; the sewerage of Taunton, 503; a national public health board, 609; a national board of health, Bowditch, H. I., 642.
- Ingalls, W.** Surgical cases in the service of Dr. Ingalls; three cases of fracture of the skull, 188; synopsis of an obstetric practice of forty-two years, 466.

- Instruments and Apparatus.** Pneumatic forceps, Richardson, W. L., 55; atomizing apparatus, De Beer, 121; anal speculum, Ordway, J. P., 121; rubber bandage, Jarvis, S. G., 282; surgical dressings, with a view to their preservative properties, Bradford, E. H., 408; tracheotomy tube, Warren, J. C., 501; examining table, Chadwick, J. R., 534.
- Jackson, J. B. S.** Specimens in the Army Medical Museum, 504.
- Jarvis, S. G.** Rubber bandage, 282.
- Jeffries, B. J.** Relative frequency of color blindness in males and females, 107.
- Johnson, J. T.** Case of combined foot and head presentation, 438.
- Jurisprudence.** Massachusetts Medico-Legal Society, address delivered June 11, 1878, Hosmer, A., 38; medical witnesses and the power of a subpoena, 57; malpractice, Sanger, E. F., 91; the relation which chemistry bears to forensic medicine, Wood, E. S., 139; the Massachusetts Medico-Legal Society, Winsor, F., 148; the value of anatomical appearances, Fitz, R. H., 193; commitments to insane asylums, 254; concerning coroners and the theory and practice of inquests, Tyndale, T. H., 268, 293; a sequel to the Fisher case, 286; the case of Captain Holm, 287; the work and duties of the medical examiner, Draper, F. W., 330; a case of arsenical poisoning, Pinkham, J. G., 357; the functions of medical examiners, 381; forensic medicine, 471; the duties of the medical profession concerning prostitution, 537; the Whitman poisoning case, 636; an outrageous suit for malpractice, 700; *Medora E. White vs. Hiram L. Chase*, 701; malpractice suits, 742.
- Keene, J. W.** A case of mitral insufficiency, with embolism of the left vertebral artery, 522.
- Keyes, E. L.** Clinical lecture: periarthritic abscess of the knee in a young child treated by the Lister method; Colles's fracture produced in a very unusual manner; phagedenic chancre; phimosis, 197.
- Knight, F. I.** Recent progress in the treatment of thoracic diseases, 183, 211; lymphosarcoma of the neck involving the lung, 498.
- Kober, G. M.** Splenotomy, 321.
- L., G. H.** Letter from Philadelphia, 448.
- Langenbeck, B. von.** Epithelial cancer of the pharynx and esophagus, operated on by Professor B. von Langenbeck, 225.
- Local Injuries.** Injury of the abdomen, Weeks, A. P., 121; three cases of fracture of the skull, Ingalls, W., 158; Colles's fracture produced in a very unusual manner, Keyes, E. L., 200; Colles's fracture, Cotting, B. E., 221; compound fracture of patella, Cheever, D. W., 229; dislocation of the head of the humerus, Cheever, D. W., 230; spontaneous rupture of the plantaris longus, Nichols, A. H., 247; fracture of skull, Webster, D. P., 281; compound fracture of inferior maxilla, etc., Thordike, W. H., 316; wounds of the scalp, Cheever, D. W., 325; bullet wound in the thigh, 328; frost bite, 350; fracture of the humerus by muscular action, Curtis, T. B., 479; bite of a centipede, Warren, J. C., 502; compression of the brain, Cheever, D. W., 639.
- Locomotion, Organs of.** Periarthritic abscess of the knee in a child treated by the Lister method, Keyes, E. L., 197; dislocation of semilunar cartilage, Thordike, W. H., 315; recurrent dislocation of semilunar cartilage, disorganization of knee-joint, Thordike, W. H., 315; caries of ankle, removal of astragalus and scaphoid, Bradford, E. H., 571.
- London.** Letters from London, 27, 541.
- Lyman, G. H.** Nitrite of amyl as a nervous sedative, 411; perforation of the gall-bladder, 501; inflamed papillae of the tongue, 603.
- McArthur, J. A.** Cuticura, 385.
- McClean, G. C.** Lead poisoning, 806.
- Malformations, Congenital.** Congenital absence of left kidney and ureter, Arnold, G. J., 406; monstrosity, Chadwick, J. R., 465.
- Marine Hospital Service.** Our Marine Hospital Service, 443; assignment of officers, 780.
- Materia Medica and Therapeutics.** Codena in cancer of the pylorus, Flint, A., 2; climate of Georgia, 59; heat stroke, treatment by cold sponging, Abbot, S. L., 63; Lister dressing in Dr. Cheever's term of service, Boston City Hospital, 93; unusual action of mercury and chloral, Watson, L. H., 99; the abuse of caustic in gynecology, Baker, W. H., 208; quinine as a febrifuge, Gray, C. A., 282; Fayal as a resort for invalids, Blake, G. A., 283; curare in hydrophobia, Blodgett, A. N., 320; recent progress in therapeutics, Amory, R., 357, 357; Florida as a health resort, Nichols, J. R., 372; elastic adhesive plaster, Morgan, W. P., 385; anesthesia caused by carbolic acid, Putnam, C. P., 406; surgical dressings with a view to their preservative properties, Bradford, E. H., 408; nitrite of amyl as a nervous sedative, Lyman, G. H., 410; carbolic cosmoline in pruritus ani, Minot, F., 503; United States Pharmacopoeia, 531; alcohol as a local application in wound, Whitney, J. O., 508; viburnum prunifolium in dysmenorrhoea, Abbot, S. L., 634; eight amputations with antiseptic precautions, Cabot, S., and Warren, J. C., 628; thymol, the new antiseptic, White, R. J., 682; the intravenous injection of milk, Pepper, W., 797; Mr. Callender's carbolic oil method, 811; twelve cases of disease of the breast and axilla operated upon with antiseptic precautions, Warren, J. C., 841.
- Medical Schools and Colleges.** The admission of women to the Harvard Medical School, 30; suggestions on medical education, 312; the preliminary course of the Johns Hopkins University, 410, 415; preliminary education, Hunt, D., 545; a striking contrast, 567; the Johns Hopkins University, 605; medical education in Germany, 774.
- Medicine.** Lead poisoning, McClean, G. C., 806; nervous versus blood diseases, Fernald, O., 372.
- Memphis.** Letter from Memphis, 669.
- Metric System.** Metric system for physicians, 257; the metric system, Murray, F. M., 710; the metric system in medicine, 711.
- Michel, M.** Examination of the negro Thomas, who arrests his heart's action, and pretends to throw his heart into the abdomen, 561.
- Mind.** Commitments to insane asylums, 254; the case of Captain Holm, 287; recent progress in mental diseases, Fisher, T. W., 490.
- Minot, F.** Uterine polypus, 56, 465; carbolic cosmoline in pruritus ani, 503; phlegmasia dolens terminating fatally, probably from pyemia, 629; local congestion vicarious with menstruation, 633.
- Moore, F. F.** Mediastinal growths, 719.
- Morgan, W. P.** Elastic adhesive plaster, 385.
- Murray, F. M.** The metric system, 710.
- Navy.** Surgeon-general of the navy, 568.
- Nervous System.** American neurological association, 15; remarkable case of paralysis with spontaneous relief, Bachelor, O. R., 31; sunstroke, 58; heat stroke, treatment by cold sponging, Abbot, S. L., 63; hysterical aphonia, Seaverns, J., 215; recent progress in the pathology and treatment of diseases of the nervous system, 241; fatal case of hydrophobia, Shattuck, G. B., and Fitz, R. H., 261; curare in hydrophobia, Blodgett, A. N., 320; chorea a self-limited disease, 354; case of supposed congestion and subsequent transient inflammation of a segment of the spinal cord, Abbot, S. L., 404; nitrite of amyl as a nervous sedative, Lyman, G. H., 410; clinical lecture on facial paralysis, Hammond, W. A., 485; chorea of the glottis, Wheeler, W. G., 503; a case of idiopathic tetanus, Smith, F. L., 574; a case of hydrophobia, Curtis, T. B., 581, 619; compression of the brain, Cheever, D. W., 639; the physiological pathology of the hydrophobic paroxysm, Putnam, J. J., 650; tetanus, Read, W., 657; the value of absent "tendon-reflex" as a diagnostic sign in locomotor ataxia, Hamilton, A. McL., 781.
- New Orleans.** Letter from New Orleans, yellow fever, 446; circular of the New Orleans Board of Health, Choppin, S., 489.
- New York.** Letters from New York, 191, 316.
- Nichols, A. H.** Spontaneous rupture of the plantaris longus, 247.
- Nichols, J. R.** Florida as a health resort, 372.
- Nichols, S.** Ante-partum hemorrhage, death, 284.
- Nose.** Case of traumatic anosmia and agnosia, Rotch, T. M., 130.
